## ◎关于煜普森

山东煜普森新材料科技有限公司，公司专注于生产和出口PVC产品：PVC发泡板、PVC型材、WPC、SPC地板。

我们工厂拥有27条板材生产线，12条型材生产线，2条全自动WPC和SPC地板生产线。我们拥有自己的研发实验室和多项发明专利、实用新型专利等。

## ◎ABOUT YUPSENI

YUPSENI NEW MATERIAL CO., LTD. is a company specializing in manufacturing and exporting PVC products: PVC foam board, PVC Profiles, WPC and SPC flooring.

Our factory has 27 sheet production lines, 12 profile production lines, and 2 fully automatic WPC and SPC floor planks production lines. We own R&D laboratory and a number of invention patents, utility model patents, etc.

## ◎制造能力

- ◆ 生产区和仓库占地 1,200,000 平方英尺
- ◆ 40多条挤出线，实现最短交期
- ◆ 月产量达到5000吨
- ◆ 一流品牌的生产设施
- ◆ 原料自动混合系统确保质量始终如一

## ◎MANUFACTURING CAPABILITIES

- ◆ Production areas and warehouses cover 1,200,000sf.ft
- ◆ More than 40 extrusion lines, to achieve shortest lead time
- ◆ Monthly output reaches 5000 Tons
- ◆ Top brand facilities Cincinnati Extruders to produce top quality products
- ◆ Raw material auto-mixing system to ensure consistent quality

## ◎质量控制体系

目前，公司拥有发明专利15项，实用新型专利43项，外观设计专利5项。所有专利技术均为自主研发，公司拥有完全自主知识产权。我们工厂拥有国内一流的实验室设备。

## ◎QUALITY CONTROL SYSTEM

At present, we own 15 patents and 43 of utility model patents. All of our patents are self-developed, we reserve the intellectual property. Our factory has the first-class laboratory equipment in China.

## ◎ PRODUCTS: PVC FOAM BOARD

PVC发泡板是一种以塑代木、以塑代钢的新型绿色环保材料,具有质地轻、韧性好、阻燃、耐酸碱、防水、保温、隔音等特性,表面可印刷、电脑打印、覆膜或制成多种色彩,可像木材一样进行锯、钉、钻、刨等二次加工。

可广泛用于专业网版印刷、展板、彩色标志、标牌、电脑刻字等方面,还可用作装饰板、隔音板、隔墙板、耐水厨具。

PVC foam board is a new type of green and environmentally friendly material that uses plastic instead of wood and steel. It has characteristics such as light weight, good toughness, flame retardancy, acid and alkali resistance, waterproofing, thermal insulation, and sound insulation. The surface can be UV printed, covered with film, or made into various colors. It can be used for secondary processing such as sawing, nailing, drilling, and planing like wood.

PVC foam board can be widely used in professional screen printing, UV printing, display boards, signs, letter carving and decorative boards, sound insulation boards, partition boards, water resistant kitchen cabinet.

## ◎ PRODUCTS: PVC PROFILES

PVC型材是一种新型的建筑材料，具有质轻、阻燃、防潮、防水等优点，可受热弯曲成型，高雅美观，可进行粘、钉等操作，安装方便。被广泛用于整体房屋装修、墙角装饰、门窗边框、天花吊顶、栏栅等建筑用途。

可直接与PVC材料粘接,可进行二次热成形及表面披覆加工,易成型加工,用一般木材工具可进行锯、钉、钻、刨等二次加工。

围栏、护栏,无需二次加工,可直接安装,操作简单,易于安装。

PVC Profiles is a type of building material, with the advantages of light weight, flame retardant, moisture-proof and water-proof. It can be heated and bent into shape which is elegant and beautiful, and can be used for adhesion, nail, etc. It is widely used in the whole house decoration, wall angle decoration, window frame, ceiling, and the appendix.

PVC extruded products can be glued directly with PVC material, thermoforming and lamination are available as well. It is easy to work similar to wood, like sawing, drilling, nailing and planning and planning.

Fence and guardrail, don't need processing, can be installed directly, easy to operate and install.

---

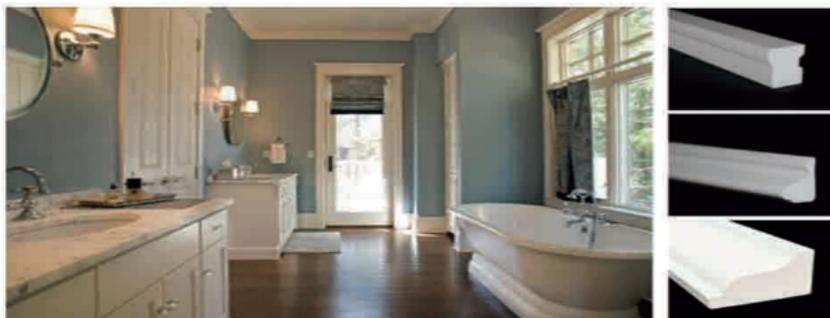

### Potential application in many areas

#### Advantages

- ◆ Light weight, easy to install
- ◆ Low maintenance
- ◆ Various options and durable
- ◆ Insect resistant, rot free, long-lasting
- ◆ Fire retardant, 100% recyclable, toxic free
- ◆ Enhance the beauty of house

Trim And Mouldings

PVC Casing Moulding

PVC Crown Moulding

### Foaming profile specification

Length: 1900/2200/2438/3048mm and customizable

Cross-sectional area: 284/929/1538/1636mm<sup>2</sup>, etc.

Color: Customizable (white, black, brown, etc).

Density: Customizable

### PVC Fencing and railing Construction & Furniture

- ◆ Meet ASTM Standard
- ◆ Easy to installation
- ◆ Heat resistant and fire retardant
- ◆ Full-automatic route machine to guarantee excellent quality
- ◆ UV resistant, Will not rust or corrode, fade
- ◆ Our fences require little or no maintenance
- ◆ Water proof, environmental friendly

## Specifications of fences and guardrail

Length: 1636/1830/2130/2438mm (variable length)

Cross-sectional area: 530/998/1400/4880mm<sup>2</sup>

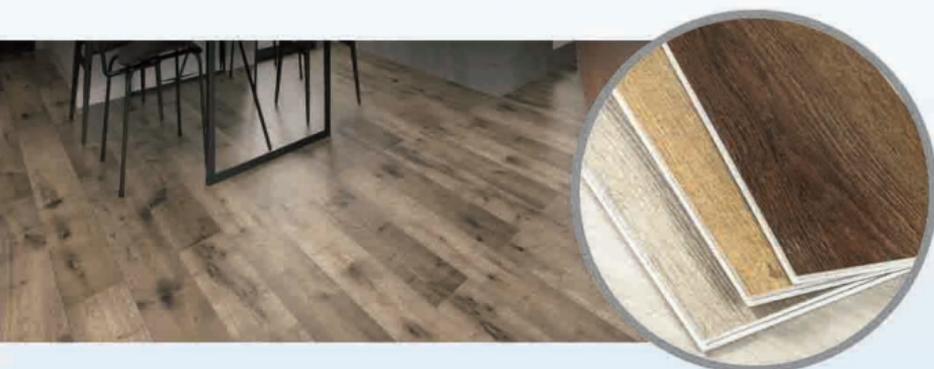

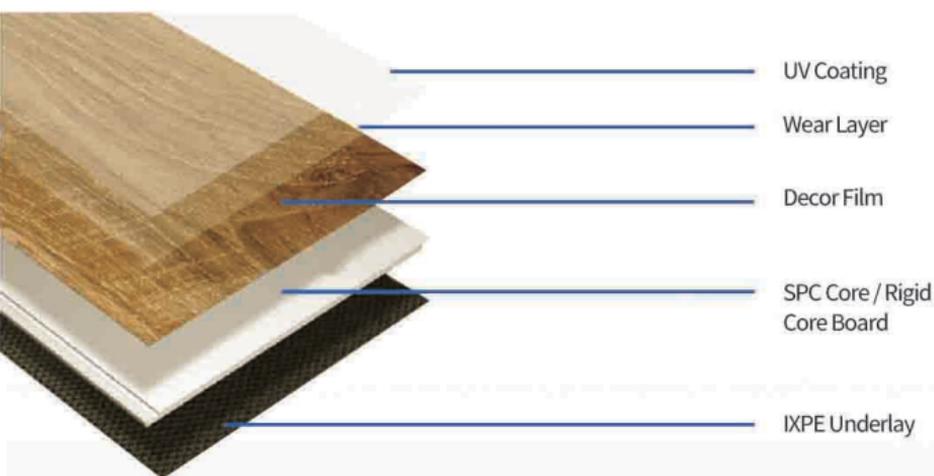

Color: Optional (white, sand, gray-blue, dark gray, etc.)

Meter weight: 820/950/1500/2180g/m, etc.

## ◎ PRODUCTS: PVC PROFILES

SPC地板是一种新型环保地板。SPC的全称是“Stone Plastic Composite”，又称石塑地板。它是由聚氯乙烯（PVC）和石粉（石灰石粉）组成的复合材料，具有木地板的外观和手感，但它相较于普通木地板在耐用度环保、防水、防潮、防滑等方面更突出。

SPC flooring is a new type of environmental friendly flooring. The full name of SPC is "Stone Plastic Composite", also known as stone plastic flooring. It is a composite material composed of polyvinyl chloride (PVC) and stone powder (limestone powder), which has the appearance and feel of a wooden floor, but is more durable, environmentally friendly, waterproof, moisture-proof and non-slip than traditional wooden floors.

## 12 super performances:

- ◆ Zero formaldehyde
- ◆ Good wear resistance
- ◆ Waterproof & fire retardant
- ◆ Sound absorption
- ◆ Underfloor heating adapt
- ◆ Corrosion resistance
- ◆ High resistance
- ◆ No used raw material
- ◆ Slip resistance
- ◆ Mold resistance
- ◆ Bacterial retardant
- ◆ Free of heavy metals and other harmful substances

## Specifications of flooring

Standard Size: 183×1220mm / 180×1524mm...

Color: Customizable

Thickness: 4.0mm/4.5mm/5.0mm/5.5mm/6.0mm...

Wear Layer: 0.3mm/0.5mm

IXPE Pac: 1.0mm/1.5mm/2.0mm

Density: 2000kg/m<sup>3</sup>

Warranty: 35 years warranty for private residential building

## ◎ PRODUCTS: PVC PROFILES

PVC集成墙板是一种集环保，隔热，防潮，保温，防火，隔音，时尚等多种元素于一体的新型装饰材料，材料轻便，方便安装。可以在解决海边墙面易发霉，墙面不易清洁等问题的同时达到工程房屋建筑物防火的要求。通过更换不同的模具可以生产多种规格，尺寸，形状，厚度的塑木装饰墙板。

PVC integrated wall panel is a new type of decorative material that integrates environmental protection, heat insulation, moisture resistance, heat preservation, fireproof, sound insulation, fashion and other elements. The material is light and easy to install. It can solve the problems of mold and difficulty in cleaning on seaside walls, while also meeting the requirements for fireproof in factories, houses, and buildings. Plastic-wood decorative wall panels of various specifications, sizes, shapes and thicknesses can be produced by changing different molds.
